Ottawa and Vicinity

Ottawa, the capital or Canada, the seat of the Government, and the residence of the Governor-General, ranks as one of the handsomest and best kept cities of the Dominion. Situated on the Ottawa and Rideau Rivers, it lends itself to natural beauty, and with its many fine edifices, the stately Parliament Buildings being the most conspicuous feature, Ottawa worthily upholds the position to which it has been raised. Since the date of its incorporation as a city in 1854, when it had 10,000 inhabitants, the growth has been rapid, until to-day the population has reached 75,000, and is as steadily advancing now as it has done in the past.

The little Album of Views will show a few of the many places of interest in the Capital.
